

MICHIGAN

Park Operational Base Summary: The table below shows the annual park operating base for all parks within this state. Park operational base funds are supplemented by as yet undetermined amounts of project funding from regional or servicewide-managed programs, such as cyclic maintenance, the Natural Resources Preservation Program, and the Drug Enforcement Program.

If a park is in more than one state, the park is included in each of the appropriate state tables. The full operating base is shown; no attempt has been made to split the park operating base amount between two or more states.

Congr	FY 2000	FY 2001	FY 2002 Uncontrol	FY 2002 Program	FY 2002
<u>Distr Park Units</u>	<u>Enacted</u>	<u>Enacted</u>	<u>Changes</u>	<u>Changes</u>	<u>Estimate</u>
01 Isle Royale NP	2,808,000	3,197,000	77,000	0	3,274,000
01 Keweenaw NHP	486,000	1,326,000	6,000	0	1,332,000
01 Pictured Rocks NL	1,384,000	1,731,000	34,000	55,000	1,820,000
01 Sleeping Bear Dunes NL	2,908,000	3,265,000	91,000	0	3,356,000

For FY 2002, Program Changes reflect increases for the Natural Resource Challenge.

The table does not include programs from other appropriations such as General Management Plans, Land Acquisition, Line Item Construction and Maintenance, Federal Lands Highway Program, and Historic Preservation Fund State Grants. Information on the distribution of funds in those programs is outlined on the next page. There are separate sections on General Management Plans and the Trails Management Program.

PROPOSED FEDERAL LANDS HIGHWAY PROGRAM

None

HISTORIC PRESERVATION FUND: STATE GRANTS

State apportionment: \$1,109

STATE CONSERVATION GRANTS

Proposed state apportionment: \$10,982

Land Acquisition and State Assistance/Federal Land Acquisition

Fiscal Year 2002 National Park Service Federal Land Acquisition Program

Program or Park Area: **Sleeping Bear Dunes National Lakeshore**

National Park Service Land Acquisition Priority (FY 2002): Priority No. 27

Location: Northwest Michigan along Lake Michigan shoreline

State/County/Congressional District: State of Michigan/Benzie and Leelanau Counties/Congressional District No. 1

Land Acquisition Limitation Remaining: None. The over-ceiling authority of Public Law 95-42 would permit the requested appropriation.

Cost Detail:

Date	Acres	Total Amount
FY 2002 Request	275	\$1,100,000
Future Funding Need	1,388	\$4,900,000

The total amount includes the cost of title, appraisal, environmental site assessment, acquisition, and relocation assistance.

Improvements: Some residential.

Description: The national lakeshore was established on October 21, 1977. The land protection plan assigns highest priority to the acquisition of tracts in the Miller Hill and Bow Lakes areas. The Act of October 22, 1982, authorized the addition to the lakeshore of 1,575 acres in these areas, but directed that acquisition would require the owner's consent unless significant damage to the resources of the lakeshore was threatened.

Natural/Cultural Resources Associated with Proposal: This is a diverse landscape with massive sand dunes, quiet rivers, sand beaches, beech-maple forests, clear lakes, and rugged bluffs towering as high as 460 feet above Lake Michigan. Two offshore wilderness islands offer tranquility and seclusion.

Threat: The National Park Service will seek to acquire the minimum interest necessary to protect the fragile resources of the national lakeshore from the adverse impacts of development.

Need: Funds of \$1,100,000 are needed in fiscal year 2002 to acquire five tracts containing 275 acres. The tracts proposed for acquisition are some of the last privately owned properties remaining to be acquired in the Bow Lakes Unit of the national lakeshore. The Bow Lakes Unit contains significant examples of glacial lakes and forested valleys that were formed when the great ice blocks melted. Upon completion of necessary acquisition, the Bow Lakes Unit would be a day-use area with trail access to significant geologic features and natural resources.

Interaction with Landowners and Partners: The landowners are all aware that these tracts are within the boundary of the Sleeping Bear Dunes National Lakeshore and contain important natural resources which the national lakeshore was created to protect. The National Park Service works closely with landowners inside unit boundaries to ensure that when they are willing to sell their lands there is a method for preserving the resources and contributing to the mission of the park unit.

Construction and Major Maintenance/Line Item Construction and Maintenance

NATIONAL PARK SERVICE Project Data Sheet	Priority: 34
	Planned Funding Year: 2002
	Funding Source: Line Item Construction

Project Title: Restore Historic Union Building

Project No: KEWE 101	Park Name: Keweenaw National Historical Park	
Region: Midwest	Congressional District: 01	State: Michigan

Project Description: This project is designed to rehabilitate the 1888 Union Building, a property listed on the National Register in 1977 and located within the Calumet National Historic Landmark District, for visitor services/interpretive purposes. Work will consist of stabilization and complete rehabilitation of the three story brick building envelope and structural system (approximately 20,300 sq. ft.); installation of new energy efficient mechanical, electrical, detection and suppression systems; repair/reconstruction of the back exterior wall; installation of an elevator; repairs to interior elements and finishes, restoration/rehabilitation of all windows; and roof repair.

Project Justification: The Union Building has a rich and varied history of use in Calumet since its construction in 1888. At various times the building housed the area's first bank, the post office, and served as a meeting place for various service organizations and community functions on the second and third floors. The building is the first property acquisition by the park and will serve to facilitate and leverage other partnership opportunities within the village. The previous owner was able to perform only minor repairs to the building. Major structural elements such as brick parapets and rear wall show advanced deterioration of mortar and displacement of masonry units, posing a danger of falling brick on visitors and employees. The Union Building is located in the Calumet National Landmark District, and is adjacent to Calumet and Hecla Mining Company industrial core, also a national historic landmark. It is therefore a pivotal element in the cultural landscape, as well as a starting point for walking tours of the industrial and community life thematic elements of the park.
